Birthday Books!

Thank you to everyone who celebrated their birthday with a birthday book last year! We would like to continue the celebrations this academic year. Please find a reminder below of what it involves and why we celebrate with books.

What does it involve?

When it is your child's birthday, your child is invited to bring a book to school to donate to their classroom library. This book will be read (or some of it for longer books) during story time on your child's birthday. We understand that not all families may be able to donate a book to school and therefore, children will still be invited to choose the story of the day on their birthday, regardless of whether they bring a book in or not.

Why?

- To promote reading for pleasure across the school
- To add to our classroom libraries
- As a way of acknowledging and celebrating your child's birthday
