CBS Knowledge Organiser

Year: 1

Art - Printing

What I already know

- What a print is and everyday examples e.g. on a piece of clothing, duvet cover, curtains, etc.
- Children will have experienced printing without even realising e.g. printing their hands to make a card design.

Key Artists

Paul Klee & Alma Thomas

Overview of unit:

Children will begin by exploring pattern and texture in the environment using the technique of rubbing. They will then move onto experimenting with monoprinting and create simple, repeating and rotated patterns. They will continue this printing, using their own stamps to print with, including a collagraph print. This will lead them up to their final piece - creating a piece of artwork inspired by artist Alma Thomas.

Key Vocab

Word	Definition
Printing	A reproduction of an original piece of art done using paint/ink. Often by pressing on top of the original with another material to create a copy
Rubbings	An image that is created by laying paper over a raised surface and rubbing with a crayon or pencil.
Texture	The appearance and feel of a surface.
Repeating pattern	A series of shapes that is repeated more than one time.
Rotating pattern	A shape that has been turned on its axis.
Monoprinting	Printing where the intent is to make unique prints.
Pressure	How much force is being used.
Stamp	A tool used to print an image.
Collagraph	A print that is 3D.
